

Urinalysis

Easy compatibility.

High accuracy

Unmatched performance

Screening of urine is essential for early diagnosis of diabetes, urinary tract infections, ketoacidosis, renal and hemolytic diseases. A routine urine analysis includes tests for colour, clarity, odour, specific gravity, pH, protein, glucose, ketones, occult blood, bilirubin, urobilinogen, leucocytes & nitrites.

Uro-dip 10C urine strips for 10 parameters are compatible with Bayer Clinitek[®] analyzer models: 50/100/500. Backed by availability of quality controls (Ud Trol level 1 & 2) Uro-dip 10C urine strips offer accurate and reliable results.

Uro-dip 10C Strips

- Compatible with Bayer Clinitek[®] analyzers (Models: 50/100/500).
- Measures Glucose, Bilirubin, Ketones, Specific Gravity, Blood, pH, Protein, Urobilinogen, Nitrite and Leukocytes
